

Display Control Keys

- 1: speed dial
- 2: received calls
- 3: missed calls
- 4: placed calls

Placing a Call

using the handset:
Pick up phone and dial number, or dial number, then pick up phone.

using speakerphone:
1: With handset on-hook, press:
- any assigned line key, or
- **☎** button, or
- **NewCall** soft key
2: Dial the number.

using the optional headset
1: With the headset connected, press:
- any assigned line key, or
- **☎** button, or
- **NewCall** soft key.
2: Dial the number.

Answering A Call

using the handset:
Pick up the handset.
using speakerphone:
With the handset on-hook, press:
- **☎** button, or
- the line key, or
- **Answer** soft key
using the optional headset:
Press **☎**

Call Transfer

- 1: During a call, press the **Transfer** soft key (the active call is placed on hold).
- 2: If a blind transfer is required, press the **Blind** soft key.
- 3: Call the number to which you want to transfer the call or access the number from a call list, and press the **Dial** soft key.
- 4: After the ring-back sound is heard, or after the party answers, press **Transfr** to complete the transfer.

Call Hold & Resume

During a call, press **☎** or the **Hold** soft key. Press the **Resume** soft key, or the line key to retrieve the call.

If multiple calls are on hold on a single line, use the **▲** or **▼** keys to select the desired call, then press the **Resume** soft key to return to this call.

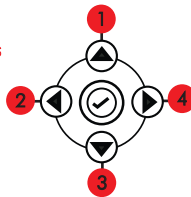

If calls are on hold on more than one line, the call details can be viewed by pressing & holding the desired line key. If a line key is pressed briefly, the first call on hold on that line will be retrieved.

During a call, users can alternate between handset, headset or handsfree modes by pressing the **☎** or **☎** keys, or picking up the handset
