# Record all your conversations from any phone

## What is RecordMyCalls?

RecordMyCalls enables users of any phone from any location to record their calls as they wish, anytime. RecordMyCalls delivers a highly reliable call recording service that empowers each and every phone call. We provide limitless secure storage of your recordings and easy to use tools to manage your recorded media. All pretty much for the cost of making a phone call.

## Benefits:

- Call directing from any phone by using the TOLL FREE number
- Access your recordings any time
- No additional software
- Recorded calls costs less than a phone call
- Ability to dictate notes fro yourself
- Unlimited secured storage of recorded calls
- Ability to download, forward and burn recorded calls

## With call recording you can provide protection that ensures:

1. You won't be scammed
2. That customer service representatives follow through on commitments and promises
3. Recorded calls made to customer service automated response systems will confirm account status if different than verbal confirmations
4. Vendors or contractors who quote a price stick with that price
5. That vendors and or service providers cannot question the accuracy or existence of requested transactions
6. That any disputes that should be in your favor associated with the purchase of products or services over the phone will be resolved in your favor
7. That verbal agreements are kept
8. You have a record of all completed sales
